PROFESSIONAL SUMMARY

Software Engineer with over 3 years of experience specializing in Java, Spring Boot, and React.js. Proven expertise in developing enterprise-level web applications and migration tools for API Management software. M.Tech graduate with strong skills in Full-Stack development, SQL databases, and RPA automation. Eager to contribute technical skills and passion for continuous learning to a dynamic engineering team.

EXPERIENCE

HCLTech March 2025 – Present

Software Engineer *KRC, Hyderabad & Vijayawada, India*

- Developed and maintained scalable enterprise software solutions using Java, improving system uptime by 15% through proactive debugging and refactoring.
- Collaborated with cross-functional teams in an Agile environment to deliver 10+ high-impact features ahead of project deadlines.
- Optimized backend system performance, resulting in a 20% reduction in API response latency for core service modules.

Sage IT January 2023 – July 2024

Java Software Developer *Hyderabad, India*

- Engineered a version migration tool for TIBCO API Management Software using Java Spring XML, reducing manual migration effort by 40%.
- Designed and implemented 15+ RESTful APIs to support internal accelerator tools, improving cross-platform data workflow efficiency by 25%.
- Utilized Java Spring Boot and Hibernate for backend architecture and MySQL for database management.

LanceSoft, India Pvt. Ltd. May 2022 – January 2023

Associate Java Developer *Hyderabad, India*

- Developed a comprehensive Hotel Management Application using Java Spring Boot and React.js.
- Built responsive front-end interfaces utilizing HTML, CSS, JavaScript, and Bootstrap.
- Managed data persistence and complex queries using MySQL and Oracle SQL databases.

EDUCATION

VNR Vignana Jyothi Inst. of Engineering & Tech January 2021 – September 2023

Master of Technology (M.Tech) in Computer Science *Hyderabad, India*

Bennett University 2016 – 2020

Bachelor of Technology (B.Tech) in CSE *Greater Noida, India*

TECHNICAL SKILLS

Languages: Java, SQL (MySQL, Oracle), HTML/CSS, JavaScript, Spring XML
Frameworks: Spring Boot, Hibernate, React.js, Angular, Tailwind CSS, Bootstrap
Tools & Cloud: Maven, Git, AWS DevOps, TIBCO API Management, ServiceNow HRSD
Certifications: MuleSoft Certified Developer, Automation Anywhere Advanced RPA Professional, Bot Developer (Automation 360)

PROJECTS

HR Portal for Client | *Java, Spring Boot, React, Gradle, DataDog, Gitlab*

- Developed various enterprise portals for diverse HR use cases, focusing on scalable architecture and secure data handling.
- Actively identified and patched software vulnerabilities to ensure the integrity of sensitive employee information.

SHIP AI - API Migration Tool | *Java, Spring XML, OpenAI API, Postman*

- Developed the "Sage IT Hub for Integration Platforms" (SHIP AI) to automate project migration between TIBCO BW6, MuleSoft, and WSO2.

- Integrated OpenAI to automatically generate XML configurations based on specific tool requirements and company templates.
- Conducted extensive API testing using Postman and SOAP UI to ensure seamless data modification and tool compatibility.

VCIOUS - Hotel Management System | *Java, Spring Boot, React, MySQL, Twilio*

- Built a full-stack web application featuring room booking, customer management, and multi-branch support.
- Implemented Spring Security for authentication and integrated Twilio for SMS-based verification and Spring Mail for email notifications.
- Developed a responsive front-end with Tailwind CSS, featuring search bars, carousels, and Axios-based API integration.

Microservices E-Commerce Platform | *Java, Spring Boot, Angular, Kafka, Docker, Redis*

- Engineered a scalable platform using microservices, integrating Eureka for discovery and Zipkin for distributed tracing.
- Utilized Kafka for real-time messaging, Redis for caching, and integrated Razorpay for secure payment processing.
- Established a robust CI/CD pipeline using Jenkins, SonarQube, and Docker to automate testing and deployment.

Polling Application | *Java, Spring Boot, React, Spring Security, Tailwind CSS*

- Designed a web-based polling system allowing users to create and vote on polls with real-time updates.
- Created dedicated Admin and User dashboards using Spring Security for role-based access control and privacy.
