PROFESSIONAL SUMMARY

Java Full Stack Developer with 4+ years of experience building enterprise web applications and API integrations with Java, Spring Boot, Microservices and React.js. Experienced in building migration tooling for API management platforms and delivering full-stack applications end to end. M.Tech in Computer Science; ServiceNow Certified System Administrator and Application Developer.

EXPERIENCE

HCLTech March 2025 – Present
Software Engineer KRC, Hyderabad & Vijayawada, India

- Develop and maintain scalable enterprise software solutions using Java, improving system stability through proactive debugging and refactoring.
- Collaborate with cross-functional teams in an Agile environment to deliver features on schedule.
- Optimize backend performance to improve API response times for core service modules.

Sage IT January 2023 – July 2024
Java Software Developer Hyderabad, India

- Engineered a version migration tool for TIBCO API Management software using Java and Spring XML to automate manual migration work.
- Designed and implemented RESTful APIs supporting internal accelerator tools for cross-platform data workflows.
- Used Spring Boot and Hibernate for backend architecture and MySQL for database management.

LanceSoft India Pvt. Ltd. May 2022 – January 2023
Associate Java Developer Hyderabad, India

- Developed a full-stack Hotel Management Application using Java Spring Boot and React.js.
- Built responsive front-end interfaces with HTML, CSS, JavaScript and Bootstrap.
- Managed data persistence and complex queries using MySQL and Oracle SQL databases.

TECHNICAL SKILLS

Languages: Java, SQL, JavaScript, HTML/CSS
Frameworks: Spring Boot, Spring Security, Hibernate, Microservices, React.js, Angular, Tailwind CSS, Bootstrap
Data & Messaging: MySQL, Oracle SQL, PostgreSQL, Redis, Kafka
Tools & Cloud: Maven, Gradle, Git, Docker, Jenkins, AWS DevOps, TIBCO API Management, ServiceNow

CERTIFICATIONS

- ServiceNow Certified System Administrator (CSA), December 2025
- ServiceNow Certified Application Developer (CAD), October 2025
- Google Cloud: Deploy an Agent with Agent Development Kit (ADK); Evaluate and Improve ADK Agents; Accelerate Development with Antigravity

PROJECTS

IntelliMeet AI | Java 17, Spring Boot, WebSocket, WebRTC, React, PostgreSQL, FastAPI

- Video conferencing app with live transcription, AI meeting summaries, link extraction and a Q&A assistant for meeting content.
- Peer-to-peer WebRTC calls with WebSocket (STOMP) signalling; Python FastAPI service for the AI features. github.com/sahilmaddi/intellimeet-ai

SHIP AI: API Migration Tool (Sage IT) | Java, Spring XML, OpenAI API, Postman

- Developed the Sage IT Hub for Integration Platforms (SHIP AI) to automate project migration between TIBCO BW6, MuleSoft and WSO2.
- Integrated OpenAI to generate XML configurations from tool requirements and company templates; tested with Postman and SoapUI.

Microservices E-Commerce Platform | Java, Spring Boot, Angular, Kafka, Docker, Redis

- Microservices platform with Eureka service discovery and Zipkin distributed tracing.
- Kafka for real-time messaging, Redis caching, Razorpay payments, and a CI/CD pipeline with Jenkins, SonarQube and Docker.

VCIOUS: Hotel Management System | Java, Spring Boot, React, MySQL, Twilio

- Full-stack web application with room booking, customer management and multi-branch support.
- Spring Security authentication, Twilio SMS verification and Spring Mail notifications; responsive React front end.

Polling Application | Java, Spring Boot, React, Spring Security

- Web-based polling system for creating polls and voting, with real-time updates.
- Admin and User dashboards with role-based access control through Spring Security.
